Each program will get 6 medallions to hand out and recognize any level athlete that shows any of these principles.

This program will be up and running by next year.

This year they have launched "Life of a Knight" They have identified 15 individuals (across the school, not only athletes). The goal is to give all the kids the tools to remain positive, say no to drugs and alcohol. Have a healthy body. Make good choices. Maximize performance in both studies and athletics
